

ROZANA

Povidone-Iodine 4 % Spray

Available Sizes: 30 mL – 100 mL

Description: A broad-spectrum antiseptic spray for external use. It contains 4 % Povidone-Iodine and helps eliminate bacteria, viruses, and fungi. It is used for disinfecting the skin, minor wounds, and superficial burns.

Composition: Each 100 mL contains Povidone-Iodine 4 %

Mechanism of Action: Povidone-Iodine gradually releases free iodine, which helps eliminate microorganisms by affecting essential proteins and enzymes within microbial cells.

Indications:

- Disinfection of minor wounds and superficial cuts.
- Disinfection of minor burns.
- Skin antisepsis before injections and medical procedures.
- Topical care of skin exposed to microbial contamination.

Directions for Use:

Spray directly onto the area to be disinfected from an appropriate distance until the entire area is covered.

- Repeat as needed or as directed by a healthcare professional.
- Allow to dry before covering the area or performing injections.

Warnings: «For external use only»

- Avoid contact with the eyes.
- Do not use in cases of iodine hypersensitivity.
- Use with caution in patients with thyroid disorders.
- Discontinue use if irritation or hypersensitivity occurs.

Storage:

- Store in a cool, dry place below 25°C.
- Keep away from direct sunlight.
- Keep out of reach of children.

ROZANA Povidone-Iodine 4 %

An effective topical antiseptic that helps maintain skin hygiene and reduce microbial contamination.
